

# CUSTOMIZE INSTRUMENTS WITH A LASER!

From cutting custom pickguards to creating stunning inlays on guitar necks and bodies, Epilog Laser systems can help you personalize nearly any instrument quickly & easily.

**The Highest Resolution Engraving:** Guarantee your customers that you provide only the best engraving by using an Epilog Laser.

**Fastest Laser Systems:** Our systems will create a higher-detail mark in less time than any other system on the market by using the highest-quality mechanics - our Accupoint™ Motion Control System.

**The Epilog Laser Promise:** We are devoted to providing our customers with not only the highest-quality laser systems, but also the finest technical support, distributor network, and after sales resources.

**MADE IN USA**

### **Create Stunning Inlays With Ease**

Whether designing a prototype for an industrial design class or a multimedia sculpture for art class or an inlay for woodworking, the sheer number of materials you can use with the laser opens up student's minds for all types of new and exciting projects. Laser cut wood, acrylic, plastic, paper and fabric; laser engrave wood, marble, glass, ceramics and much more. Imagine your students having the capability to manipulate so many different materials all with one tool.

### **Add Value To Your Current Product Line**

Whether designing a prototype for an industrial design class or a multimedia sculpture for art class or an inlay for woodworking, the sheer number of materials you can use with the laser opens up student's minds for all types of new and exciting projects. Laser cut wood, acrylic, plastic, paper and fabric; laser engrave wood, marble, glass, ceramics and much more. Imagine your students having the capability to manipulate so many different materials all with one tool.

### **Create Custom Pick Gaurds from Scratch**

You can even bring school fundraising inhouse by selling school logos on all types of products. School signage, door markers and awards and plaques can all be created with the laser for a fraction of the cost of outsourcing these expensive projects.

### **The Perfect Size Machine to Fit Your Needs**

Whether you are looking for a small, entry-level system to mark gift boxes and cut ornaments, or a large-format machine to engrave and inlay cabinets, we design a range of laser systems to meet varying needs.
